Speaker: Aimee Vail-Davis, RDH,
MHA/ED

Aimee has been a dental professional since 1999, and is the Special Markets

Manager for Centrix. She received her undergraduate degree in Dental Hygiene in 2004, and a Masters degree in Healthcare Administration/Education in 2011. She is passionate about dental education and lifelong learning. She lives

in Connecticut with her husband, four young sons and two dogs.

Topics: Prevention for Life

Time: 9:00 - 11:00 AM

Objectives:

- Quickly assess the patients' risk level using an evidence-based protocol for known risk factors
- Effectively communicate the long-term benefits of fluoride varnish as a risk reduction tool
- Provide assessment and treatment with minimal change to your current hygiene appointment
- Establish an office protocol promoting risk assessment as an important part of patient and practice health
