**Course: *The ABCs of Direct Composites: Tips and Methodology for Teaching Adhesion, Bands, and Composites***

### **Course Description:**

Created for didactic and preclinical instruction to all levels of dental assistants and EFDAs, this interactive lecture will review basics of restorative procedures to provide predictable, consistent, and superior patient care.

Confused about what each component really does? Not sure when total/self/selective etch is used? Convinced yet your practice needs to get onboard with sectionals? Think all flowables are the same?

Clinical tips for success and brand suggestions will be included as well as troubleshooting daily challenges faced while attempting to educate clinically competent team members.
