- Non-Member: \$25
- DA Students: \$0 (MUST provide current ID card. No CE provided)

Confirmation and zoom link will be sent after registration and payment is received.

Cal/OSHA Bloodborne Pathogen Standard Course Content:

Provide an overview of the Cal/OSHA regulatory requirements pertaining to occupational exposure to bloodborne pathogens – Title 8 of the California Code of Regulations, section 5193. Topics will include scope and application of section 5193 and the necessary elements of a bloodborne pathogen infection control program.

Employee Rights Course Content:

Provide an overview of employee rights under the Cal/OSHA program, including jurisdiction, employer and employee responsibilities and employee rights relative to hazards, and Cal/OSHA standards.

About the Speaker: Kelly Howard, CIH

Mr. Howard received his Bachelor of Science degree in Biological Sciences from U.C. Irvine, and his Masters degree in Environmental and Occupational Health from C.S.U. Northridge. He is certified in the comprehensive practice of industrial hygiene through the American Board of Industrial Hygiene.

Mr. Howard has been employed as an industrial hygienist for the past 42 years, working for the aerospace industry and Cal/OSHA Consultation program. His current position with Cal/OSHA is as a Senior Safety Engineer with the Cal/OSHA Publications and Outreach Unit.

Sponsored by: Pomona Valley Dental Assisting Society, San Fernando Valley Dental Assisting Society and California Dental Assistants Association.
