Speaker: Marc Geissberger, DDS

Promoting Physical Health for the Dental Practitioner, their Team and Patients

Wellness is an active process of becoming aware of and making choices toward a more successful existence. Establishing a wellness program for yourself and your practice can have lasting, profound results. A healthy, fit and engaged dental team, brimming with energy and enthusiasm, can provide great care for their patients and act as role models for healthy behavior. This program will examine the health and wellness trends of Americans and explore possible corrective strategies designed to enhance the well-being of all. Emphasis will be placed on a step-by-step approach to set, modify, monitor and achieve reasonable changes to one's current level of overall wellness and physical activity. Additionally, all participants will learn ways to promote wellness and physical health of all they encounter daily.
